Says Kaiser Is Shorn of Power Germany Replies To President Wilson; Orders Torpedoing of Boats Stopped

ASSUMES ARMISTICE RESULT OF ACCEPTING U.S. PROPOSAL

Reply Protests Against Reproach For Illegalities and Inhumanities, and Denies in Sinking Ships, German Submarines Purposely Destroyed Life Boats or Passengers. No Word From Washington Until Official Text Arrives Tomorrow.

IT MAY MEAN PEACE IS A LONG WAY OFF

(By United Press)

London, Oct. 21.—Germany today definitely announced that the kaiser had been shorn of his power to declare war, and declared that German submarine commanders had been ordered to stop torpedoing passenger ships, in her reply to President Wilson's note.

In agreeing that the terms of an armistice should be fixed by the military advisors, the German note stated that the present standard of power "of both sides," should be safeguarded.

There was no definite acceptance of Wilson's statement that the terms should be fixed by the military advisors of the United States and the allies. The text apparently left open the possibility of Germany claiming that the military advisors of Germany as well as the allies should participate in fixing the terms of the armistice.

Berlin, Oct. 21.—The German reply was handed by the German government last night to the Swiss legation in Berlin for transmission to the United States. The note begins with the following:

"In accepting the proposal for the evacuation of occupied territory, the German government started from the assumption that the procedure for this evacuation on the conditions of the armistice, should be left to the judgment of the military advisors and that the actual standard of power with both sides of the field held, should form the basis of arrangement safeguarding and guaranteeing this standard."

With reference to the responsibility of the existing government, the note says:

"The leaders of the great parties of the reichstag are members of this government."

"In the future no government can take office or continue in office without possessing the confidence of a majority of the reichstag."

"The responsibility of the chancellor of the empire to the representatives of the people is being legally developed and safeguarded. The first act of the new government has been to lay before the reichstag a bill to alter the constitution of the empire so that consent of the representatives of the people is required as to war and peace."

With reference to the charges of illegal and inhuman practices the note says:

"For covering a retreat, destruction will always be necessary, and in so far as necessary they are permitted by international law."

The German government further denies that the German navy in sinking ships, ever purposely destroyed life boats with passengers.

TO BEGIN MAILING TO SECOND GROUP

County Army Selection Board Will
Send First Questionnaires Out
on Wednesday

FIRST GROUP IS CLASSIFIED

Legal Advisory Board Urges Prospective Soldiers to Fill Out
Questionnaires at Once

The names of military registrants placed in deferred class-
es will be found on page sev-
en. Unmarried men with no
dependency claims, in the list
obtained a deferred classifica-
tion from the district board
because of some occupational
claim.

The local army selection board will begin mailing questionnaires to September 12 registrants under nineteen years of age and between thirty-seven and forty-five, Wednesday, in accordance with the instructions from the provost marshal general last week that this task should be started just as soon as registrants between eighteen and thirty-six years of age, inclusive, had been classified and their names entered on the classification record.

The classification of the first group had been completed today, after the board and its assistance put in many extra hours of hard work.

FRANK P. POND VICTIM OF THE SPANISH "FLU"

Former Rush County Man Expires at
St. Joseph's Hospital at Hot
Springs, Ark.

BODY WILL ARRIVE TONIGHT

Frank P. Pond, age 56 years, died last Friday night from the influenza at the St. Joseph's hospital, Hot Springs, Arkansas, where he had been four months. Last April he went to Winter Park, Florida, where he was stricken with a stroke of paralysis. The deceased was the manager of a large packing house in Florida.

He was a shiner, a member of the Elk lodge and also a member of the Christian church. Mr. Pond was born and reared on a farm at Andersonville, Ind., and he leaves a large circle of friends and relatives. The survivors are three daughters, Mrs. Ella Smith of California, Mrs. Chester Nelson of Oxford, Alabama, Mrs. Fred Waldron of Byran, Ohio; a sister, Mrs. W. P. King of New Salem and one brother, C. C. Pond of Riverside, California. The body will arrive here some time tonight and will be taken to the home of Mrs. W. P. King of New Salem.

Clayton Cooper, spent Saturday night and Sunday as the guest of friends in Knightstown.

THREE DEATHS ARE DUE TO INFLUENZA

Toll of Epidemic Over Sunday
Brings Number of Victims of
Malady up to Seven

ASSUMES SERIOUS ASPECT

Health Officials Demand Strict Com-
pliance With State Health
Board Rules

With three more deaths from influenza over Sunday, the epidemic situation in Rush county assumed even more serious aspects today. This is the largest number of deaths during the period of twenty-four hours since the malady became epidemic, which brings the total number of deaths in the county, since the disease became general, up to seven.

Mrs. Tobias Owens died yesterday and her daughter Louise, age sixteen, expired today shortly before noon. The whole family of several children is afflicted. Nelson Brown, Jr., colored died, Sunday. A former Rush county man, Frank F. Pond, also fell victim to the disease last Friday at Hot Springs, Ark.

Twenty-nine more cases were reported Saturday and reports of additional new cases were being received this morning. It is the belief of the health officers that many cases are not reported, especially those where the patients have the disease only in a light form.

Health officials demand that there be the strictest compliance with the

ROSCOE WARD DIES AT HIS HOME HERE

Well Known Young Farmer Expires
of Enlargement of Liver Af-
ter Five Months Illness

FUNERAL TUESDAY, 2:30 P. M.

Roscoe Ward, age 25 years, son of Mr. and Mrs. John Ward, died at his home in North Main street yesterday morning at ten o'clock from an enlargement of the liver with which he had been suffering for about five months.

The deceased was born and reared in Rush county and lived here all his life with the exception of a few years, when he traveled throughout the western states. He attended the local high school here and went to business college. He was a member of the Phi Delta Kappa fraternity and the K. of P. lodge. The deceased was a member of the Main Street Christian church and took an active part in church work. His death was a great shock to his many friends, besides his survivors, who are his widow, formerly Miss Elsie Ray of Falmouth, a two-year-old daughter, Elsie, mother, father and sister, Mrs. Will Abercrombie.

The funeral will be private and will be held Tuesday afternoon at 2:30 o'clock at the house with the Rev. L. E. Brown officiating, with interment in the East Hill cemetery.

PLANNED TO EVACUATE FRANCE BEFORE PEACE NOTE WAS SENT

German Prisoners Taken by the Americans Make This Declaration, And Say Every Foot of Ground on Yankee Front Will be Disputed Until Huns Evacuate Sea Regions. Germans Vast Turning Movement Backward Continues.

ALLIES ROLLED BACK HUNS ACROSS LYS

(By United Press)

With the American Armies in France, Oct. 21.—German prisoners state that Germany made arrangements to evacuate France before the peace note was sent to President Wilson. They said in effect:

"The Americans have the worst blood-letting sector of the entire line. Every foot of ground is to be disputed until the German retirement from the sea regions is completed."

RUSH COUNTY HAS TO RAISE \$44,000

Faces New Campaign For United
War Relief With Fourth Loan
Successfully Subscribed

CONFERENCE HERE TOMORROW

Fund of \$170,500,000 to be Raised in
the Nation Will be Divided
Among 7 Organizations

With the Fourth Liberty Loan campaign successfully concluded, Rush county now faces the task of contributing \$44,000 to the united war work campaign during the week of November 11 to 18.

A conference will be held here tomorrow by Frank L. Donnell of Greensburg, district chairman, and Will Inlow, county chairman, and other workers of Rush county. The conference is expected to mark the beginning of an active preliminary campaign, which will result in Rush county reaching her allotment before the week set for the drive.

The state of Indiana has to raise \$5,000,000 of the fund of \$170,500,000 to be contributed in the United States for seven war organizations.

The campaign for the seven war charities has been combined to avoid what the people went through the first year and a half of the war in subscribing first to one fund and then to another.

The campaign has been deferred until this time because of the Fourth Liberty Loan, but now it is expected to be pushed energetically with the view of bringing it to a successful conclusion at the earliest possible moment.

The sum to be raised in the nation will be divided among the seven war relief organizations as follows: National War Work Council of

Rolls Back Across Lys.

London, Oct. 21.—British troops are approaching St. Amand, eight miles northwest of Valenciennes, Field Marshal Haig reported today. Contact with the enemy is being maintained. The British are nearing the line on the Scheldt, North of Tournai.

More than three thousand prisoners were captured by British north of Le Cateau Saturday.

The Germans have been rolled up over the Lys river at three places and the allies are driving close to Ghent and Tournai, he added, in a special statement on the Flanders offensive. The attempt of the Germans to make a stand on the line of the Lys river has been overwhelmed and the allies are already in touch with the next defense line along the Eschaut river.

The enemy has been forced to withdraw on its whole front in Belgium. The allies have reached positions eleven miles west of Ghent.

The French have established bridgeheads on the east side of the Lys eleven miles southwest of Ghent. Beyond Lille the British have driven the Germans across the border from France into Belgium, and have reached the outskirts of Reza, six miles north of Tournai. In their drive against Valenciennes from the southwest, English, Scottish and Welsh troops, fighting in a rain storm, shattered desperate resistance in villages along railroad lines. Tanks with the infantry crossed the Selle river.

King Albert in Bruges

London, Oct. 21.—King Albert of Belgium has arrived in Bruges, according to a dispatch from the Holland border today. American, Belgian and British troops with heavy artillery have been observed in that neighborhood, it was stated.

Turning Movement in Full Swing

Paris, Oct. 21.—The German vast turning movement backward continues in full swing today. Six Hun armies involving on Mat

SPANISH INFLUENZA—A NEW NAME FOR AN OLD FAMILIAR DISEASE

Simply the Same Old Grip That Has Swept Over the World Time and Again. The Last Epidemic in the United States Was in 1889-90.

ORIGIN OF THE DISEASE.

Spanish Influenza, which appeared in Spain in May, has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C., which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831 this country has had five epidemics, the last in 1889-90.

THE SYMPTOMS.

Grip, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages, nose, throat and bronchial tubes. There is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearance of a severe head cold.

THE TREATMENT.

Go to bed at the first symptoms—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Nature herself is the only "cure" for influenza and will throw off the attack if only you conserve your strength. A little Quinine, Aspirin or Dover's Powder may be given by the physician's directions to allay the aching. Always call a doctor, since the chief danger of grip is in its weakening effect on the system, which allows complications to develop. These are chiefly pneumonia and bronchitis, sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grip germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the parts until the skin is red, spread on quickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck as the heat of

the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates the skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

NO OCCASION FOR PANIC.

There is no occasion for panic—influenza or grip has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally patients in a run down condition—those who don't go to bed soon enough or those who get up too early.

HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds—which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food.

KEEP FREE FROM COLDS.

Above all avoid colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs. Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary teakettle. Fill half-full of boiling water, put in a half teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor, with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors. VapoRub can be had in three sizes at all druggists. While comparatively new in certain parts of the North, it is the standard home remedy in the South and west for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's croup or colds, as it is externally applied and can, therefore, be used freely and often without the slightest harmful effects. (Advertisement.)

DESCRIBES WORK AS A SIGNALMAN

Private Ben J. Wilson, Writes Interesting Letter From Camp Sheridan Describing Experiences.

COMPLIMENTED BY OFFICER

Tells of Demonstration of Installation of Wires Which Brings Praise From Commander

Private Ben J. Wilson, Headquarters company, 45th infantry, of Camp Sheridan, Alabama, has written friends here describing his experiences since he enlisted June 3rd in Indianapolis and was sent to Jefferson Barracks, Missouri. He remained there only about three weeks and then was assigned to the 45th infantry at Camp Sheridan. He expects to go overseas soon.

Private Wilson says there are about 200 cases of Spanish influenza in Camp Sheridan and that the situation is well under control. Since he is a member of a signal platoon, Private Wilson has been given experience by working about eight weeks for the southern Bell Telephone company, in Montgomery, Alabama.

Private Wilson says that there is a difference between the signal platoon and the signal corps. The signal platoon is a unit of a regiment composed of about 70 men and quartered with the headquarters company. This platoon has charge of all communications between companies and the battalion, which pass through to the regimental headquarters. All other communications are kept up by the signal corp for the whole division. Private Wilson continues as follows regarding the signal work:

My pal, Private Priespion worked with me at the Montgomery office about eight weeks until some three weeks ago and since that time has been attending signal school. This school takes up many branches of signaling which every signalman must be accustomed with, regardless of what special branch one will work at so as in case one system or line of communication is destroyed, he has access to other means of signaling. We are taught flag, buzzer or telegraph and telephone, flashlight and heliograph signaling. The latter is discarded as this signaling is done with two mirrors, focusing the sun on one mirror to the other, thence to the call station. The disadvantage of this is the lack of sunlight when wanted, but will save it is amazing how far and distant a big glare of dazzling light can be visibly seen. These messages are sent by flashes in dots and dashes using the international code similar to the code used by the telegraph throughout the country.

This same code is used in sending messages with the wig wag flag signaling, buzzers and wireless telegraph and also flashlight signaling. Messages sent over the telephone are also sent in code but using the alphabet and a word used corresponds to the letters to make up the word in the message. They are also ciphered to make it more difficult for the enemy to read, changing the key word each day. I could say much more about this ciphering but as it is a very deep study it would be a difficult matter to explain and also not advisable at this time.

Two weeks ago Thursday evening we had occasion to show our talent along the telephone line. A lay-out of network of communicating lines was strung at the officers headquarters connecting switchboards with trench line phones and artillery machine gun, regimental headquarters and observation bases. Private Priespion and myself installed and strung the communication base, supposing to be the 2nd battalion headquarters. This station was more difficult than the other stations as it is centrally located from the machine gun and artillery base, necessitating two switch boards instead of one in this construction work, laying out and forming of wires terminating at the switch boards.

Private Priespion and myself took great pains with our work, which showed what ability we really possessed from previous experience. This demonstration took place in the presence of about fifty officers, giving an idea how important such

Live Stock Sale

At The CULLEN FARM, 1 1/2 miles west of Rushville, Indiana, on

Wednesday, Oct. 23rd, 1918

150 PURE-BRED Duroc Hogs 150
125 Gilts and 25 Spring Boars

In making this offering we feel a pardonable pride and believe you will bear us out in the statement that this is one of the best ever sold from this farm. They are a uniform lot throughout, rich in some of the best and most popular blood of the breed, have lots of size and quality and have been grown in a way to give them plenty of bone and muscle—the kind to keep getting better and produce results. Do not let this opportunity pass by and if they meet your approval make your selections, and if you will permit a suggestion—buy them regardless of price for there was never a time when a good sow or boar would make more money than now. ALL DOUBLE IMMUNED.

20 - HEAD OF CATTLE - 20

Two yearling POLLED SHORTHORN BULLS, one Roan, one Red, sired by a ten bull and out of excellent cows. 10 GRADE COWS with first calves by their side, ready to wean. A lot of good milkers.

4 - Head of Horses - 4

2 Chestnut Three-year-old Geldings; 1 Bay Three-year-old Gelding, well broken and excellent workers; 1 Two-year-old Chestnut Gelding. These were all raised on the farm, sired by our own stallion, out of good mares, and will mature 1600 pounds or better. We are selling these for lack of room and will make someone good money to feed till spring.

1 McCORMICK BINDER IN GOOD CONDITION.

GET FIRST LETTER FROM SON OVERSEAS

Mr. and Mrs. D. M. Kinney Have Word From Sergt. Eli Kinney of Company C, 334th Infantry

QUEER CUSTOMS OF FRENCH

Mr. and Mrs. D. M. Kinney have just received the first letter from their son Sergt. Eli Kinney, Company C, 334th infantry, since his arrival overseas. He wrote an interesting account of his observations during the short time he has been in France. He said everywhere you look nothing could be seen but hills and grapevines. He spoke of the queer customs of the French people and their antiquated methods of farming, as compared with the progressiveness of the American farmer. Sergt. Kinney said that the farmers all used oxen and nowhere was there a cultivator to be seen. People all cooked on open hearths, the former Rush county boy said, and used old fashion bellows to start fires.

Sergt. Kinney said that all the men in his company were in exceptionally good health, only two being the least bit indisposed, after their voyage across the Atlantic and their overland trip to the place where they had been billeted. Sergt. Kinney has been with the 84th or Lincoln division ever since it was organized at Camp Taylor and later moved to Camp Sherman, Ohio, before going to an eastern embarkation port.

Herman Miller of near Milroy, left today for Warrington, Fla., where he is stationed.

—Raymond Harris, who is in the navy, has arrived for a short visit with his sister, Mrs. Rex McHenry of Richmond.

—Miss Katherine Hitt of Indianapolis, spent the week-end here as the guest of her parents, Mr. and Mrs. William Hitt, living south of the city.

OVERSUBSCRIBES THE FOURTH LOAN

Rush County Passes Her Quota by \$84,300, According to Official Report Sent to Wade.

GRAND TOTAL IS \$1,184,300

Amount Would Have Been Larger if County Had Been Credited With All Her Subscriptions.

22,000,000 SUBSCRIBERS TO FOURTH LIBERTY LOAN

Washington, Oct. 21.—Approximately 22 million persons, or 20 per cent of the nation's population subscribed to the Fourth Liberty loan, official reports today indicated.

This is about a 20 per cent increase individual sales over the third loan when 18,300,000 persons bought bonds.

True to her past patriotic record of liberally supporting every request for money for war purposes, Rush county oversubscribed the Fourth Liberty Loan \$84,300.

Total subscriptions officially reported amounted to \$1,184,300, according to a report which has been submitted to Will H. Wade, director for Indiana of the seventh federal reserve district, by Earl H. Payne, county chairman. The county's quota was \$1,100,000, the largest it has ever had to meet in any Liberty Loan campaign.

The immense sum which Rush county people have loaned to the government to be used in the prosecution of the war, again reveals the sincere loyalty and patriotism of the county. It is believed that the amount would have been much larger had Rush county been officially credited with all the subscriptions of citizens of Rush county.

The subscriptions made through the various banks of the county were as follows:

NOT MANY MACHINES APPEAR HERE SUNDAY

Regardless of Lifting of Ban, Few Automobiles Are Used For a Number of Reasons

UNFAVORABLE WEATHER ONE

In spite of the lifting of the ban on Sunday automobile riding, few cars appeared on the streets of Rushville yesterday. In fact, they were so few that the uninformed observer might have been led to the belief that the request of the national fuel administration to conserve gasoline was still in force.

Three factors probably accounted for the few machines abroad—unfavorable weather, a patriotic spirit to help conserve the gas supply, ban or no ban, and thus make it possible for a greater supply to go to the overseas forces and the fact that the motoring public in the seven gasolineless Sundays has become accustomed to eliminating joyriding from the day's program and does not care to resume the practice immediately.

DAYS PICKINGS

Harry Schmalzel is ill at his home in First street, with the influenza.

The Superba Phonograph company has filed suit in the circuit court against John A. Spurrer on an account.

John Mull Wallace, son of Mr. and Mrs. Mull Wallace, is ill at the home of his grandparents, Mr. and Mrs. John Wallace in West Third street, with the influenza.

Harold Johnson, formerly of Milroy, has recovered from an attack of the influenza at the artillery camp at Westpoint, Ky., according to word received by relatives.

James Mullin has recovered from an attack of influenza and today reopened his blacksmith shop. He was sick for three weeks and every member of his family had the disease.

Mr. and Mrs. John Jordan in North Main street, entertained with a twelve o'clock dinner yesterday. A bouquet of fall roses adorned the dining room table. The guests included Mr. and Mrs. Herbert C. Mint and daughter Miss Leah.

Mrs. W. M. Bosley of Milroy has received word that her nephew, Eugene Kern, of San Francisco had been promoted to a captaincy, and has returned to New York from a period of service overseas. He arrived in France last February. He will serve as an instructor at one of the training camps in this country. Captain Kern has visited here a number of times and is known to many local people.

Mr. and Mrs. Earl Riley, formerly of this city, accompanied by Mr. and Mrs. Ira Jackson of Connersville, arrived in Denver, Colo., where they will make their home, October 17, according to word received here. They made the trip by automobile in easy stages, losing one day on account of rain and three days due to a broken axle. They also visited a short time enroute at Omaha, Neb., with Mrs. Riley's sister.

An organ which was donated to the Red Cross by George W. Thomas of this city, will be sold to the highest bidder at the Sexton and Brown sale Wednesday and the proceeds will go to the Rush county chapter.

NELSON BROWN JR., DIES

Colored Man Succumbs To Pneumonia Following Influenza

Nelson Brown, Jr., colored age 40 years, died at his home in East Eight street, last evening at 7 o'clock from pneumonia, which first started with the influenza. The deceased was well known in this city and had been employed as the butcher of the Week's Meat Market for about twenty-five years. The survivors are his widow and one child, Clyde. The funeral services will be held at the house, Wednesday morning and will be private.

WEATHER FOR THE WEEK

Washington, Oct. 21.—Fair and warmer first of week; generally fair thereafter, and probably cooler end of week.

We Know It Is Hard

To get the Christmas spirit so early, but rather than disappoint the boys in France, we now have on display our beautiful line of personal greeting cards and

October 31st

is the final date for mailing cards to the soldiers. Just a little more than a month and by the time that your order has been filled, it will really hurry you to get them mailed.

Embossed and Engraved

Yes, all the samples are embossed in colors and engraved. Your name, engraved adds the personal touch. Send the boys over there a message on Christmas day—it will enlighten them. People who bought cards last year must bring their plates. This is going to be a card Christmas because it is cheaper and answers the purpose of an expensive gift. Presents will not be sent to soldiers this year because the government needs the ships to carry soldiers instead of heavy mail.

Homeseekers

We have heard much about the proposed reclamation of territorial tracts to provide homesteads for returning soldiers. The voice of approval is loudest, but here and there sounds a note of criticism.

It is not natural that those who have never felt the lure of the farm—much less that of the wilderness—should show more than a lukewarm enthusiasm about the scheme. Agriculture calls for a special combination of qualities, and colonization even more so. A farmer is as much a specialist these days as laryngologist, and needs ten times as much versatility. This portentous truth is better appreciated in Rush county than in the large cities, but it is no longer a secret even there; and many populous centers have contributed quotas of soldiers who will show only a qualified rapture at the prospect of subjugating nature after completing the subjugation of the Hohenzollerns.

But the scheme is just. The draft takes an enormous toll among the farmer boys. Physical strength is the first requirement, and where is it found so uniformly as among farmers. No human material is so easily adapted to the exactions of army life as the kind that is found on the farm. This is a war of machinery,

and the cities contain many kinds of machine-hands; but the experience of most of them is of the narrower kind, whereas the farmer has to be ready for any sort of emergency—from repairing his electric light plant to tinkering his tractor. And when a horse or mule needs doctoring he has the machine-hand tied to a tree. The robust body and the dextrous hand—these are the merchandise that Uncle Sam is hunting, and where does he find it in such abundance as on the farm?

Since then so heavy a drain is likely to be made upon one class of population, it is only fair that that class should be specially considered in plans of replenishment and readjustment. The program should be so framed as to meet the needs of the largest number of candidates making claims upon it, and those who by the circumstances of their upbringing are not fitted for a scheme of colonization will be given every chance of adapting themselves to its demands. They will not have very much to learn after their life in camp.

Many thousands will not need to avail themselves at all of its advantages, and the hardy pioneers who do will arrive, none too soon to stem the tide of cityward migration which has contributed so much to unwholesome congestion in recent years.

The Triumph of Abnegation

Many of us are at a disadvantage through our lack of visual imagination.

We can read of the Otranto disaster without seeing a mental picture of the storm. We cannot see the waves mounting seventy feet high, and the American soldiers lining the rails with the discipline of the parade ground till receiving the order to jump. The printed page cannot give us the same thrill as the celluloid film, and on these occasions the camera is not in action.

Those who lost relatives in the disaster will see the picture more vividly, and among the khaki-clad figures that people in there will be one outlined more distinctly than any of the others. But even in its interest-pregnancy their grief will

find some consolation in the victorious progress of the undertaking to which their kinsmen contributed, by the example of death heroically faced. They were as much a part of it as those whose graves have consecrated Chateau Thierry and St. Mihiel.

Over 322,333 American soldiers were landed in France during the month of August. One thousand American locomotives are operating there, and over 10,000 American freight cars—all used in transporting men and supplies to the front. More than 1,800,000 American soldiers were in France by October.

The unselfish patriotism that gladly yields its kinsmen to the furtherance of a sublime cause finds consolation even in cold arithmetic such as this. Every wooden cross in French and Flemish soil, every unmarked grave in the Atlantic is sacred as a part of the price which we pay as a nation for the accomplishment of our steadfast resolve.

The two most popular words in America just now are "unconditional surrender."

The destiny of Germany is either one thing or the other. She will certainly be in peace or in pieces soon.

The saying "few die and none resign" does not apply in Germany. Many are dying at the front and resignation seems to be the favorite occupation in official circles.

FLOW OF ORATORY IS BEING HELD UP

When it is Let Loose, it Will Supply Active Time For Politicians Before Election

INFLUENZA IS TO BLAME

On Account of Uncertainty no Definite Dates Can be Arranged For National Leaders

(By United Press.)

Indianapolis, Oct. 21.—With the speaking dates in the pre-election campaign called off because of the epidemic of Spanish influenza, indications today were that when the campaign oratory was allowed to open up it would furnish an active time for the politicians during the few days left before election.

Leaders in both parties are hoping that the epidemic will have abated sufficiently by the first of next week to allow the order prohibiting public meetings of any character to be rescinded.

However, on account of the uncertainty of the situation, no definite dates can be arranged yet and it has been impossible to book any of the national leaders for a tour of the state.

However both parties have been making good use of the mails, and what they are forced to lose in meetings they are making up in the spreading of literature.

The republicans have arranged definitely for Senator Harry New and Senator James E. Watson to make several speeches in the state during the few days previous to the election.

The democrats are arranging for speakers to appear in every school house in Indiana during the ten days prior to election according to Fred Van Nuy state chairman.

Last reports on registrations from all parts of the state show that the total number of voters enrolled is more encouraging than earlier reports indicated. A vote of about 85 percent of that of 1915 and 70 percent of that of 1916 is in prospect according to the workers of both parties.

New York will build no schools during war time.

Barrage

The Habit
By BURTON BRADLEY

When weather's very clear and dry
A Savings stamp I go and buy.
And tuck it cheerfully away
To guard against a rainy day.

And when the weather's wet and damp
I go and buy a savings stamp,
And hide it in my privy purse.
For fear the weather may grow worse.

When I am flush I buy the stamps
To fend off future fiscal cramps,
And when my straits are rough and deep
I buy thrift stamps because they're cheap.

When one stamp on my card is glued
The other spaces all look nude,
And so I cannot pause or rest
Until that card is fully dressed;

And if I stop with that, I find
I get quite restless in my mind
Without a card to fill, so then
I have to start the thing again.

It's great to watch those stamp-cards grow
And lick the stamps to tick the foe
And make him scurry like a rabbit;
You ought to try it—Get the Habit!

FRATERNAL ORDERS OVER WITH BONDS

Insurance Department, Supreme Lodge, Knights Of Pythias, Doubles Quota.

SUBSCRIPTION OF \$100,000

It Is The First Fraternal Insurance Society In America To Purchase Liberty Bonds.

The Insurance Department Supreme Lodge, Knights of Pythias, showed the people generally and in particular other fraternal organizations just where it stands, when it doubled its subscription of \$100,000 to the Fourth Liberty Loan. The additional subscription of \$100,000, filed by Harry Wade, president of the Department, was authorized by telegrams from nine members of the Board of Control who live in various parts of the United States and Canada. Last week the Department purchased \$100,000 of Bonds under authority of the Board at a meeting in Detroit early in August.

The Department has purchased \$850,000 of the Liberty Loan Bonds. It was the first Fraternal Insurance Society in America to Purchase Liberty Bonds. The subscribers to the First Loan was made through the Indianapolis Star in April 1917. The Board purchased \$100,000 of the Second Issue and last April they subscribed for \$500,000 of the Third Liberty Loan. With \$200,000 of the Fourth Liberty Loan the Department has become one of the largest buyers of Liberty Loan Bonds in Indiana.

The latest report of Supreme lodge officers shows that more than 55,000 members of the Knights of Pythias are now in service. Some lodges in Indiana have reported as much as 25 per-cent of their membership already in training or overseas. The Order, beginning Thanksgiving Day, will start a campaign to raise a War Relief Fund of a half million dollars for immediate relief of soldiers and their families.

Reports from the Uniform Rank, the military department of the order, show that a very large part of their number are long since in the service. Of these men, five are Brigadier Generals in the regular or national army, ten are Colonels and seventeen are Lieutenant colonels. Of the other officers the Uniform Rank has supplied more than 500.

The Pythian Sisters are raising a fund of \$100,000 and every Temple over the whole United States and Canada has been turned into a sewing shop for the Red Cross.

Commenting on the subscription yesterday and the showing made by the Insurance Department, President Wade said that a very large part of the surplus funds of every Subordinate Lodge in the United States has been invested in Liberty Loan Bonds, the amount reaching several million dollars.

War Help

War Help
War Duties

(Compiled and Condensed for the Indiana State Council of Defense by George Ade.)

If there is a community anywhere in Indiana that has not gone definitely and resolutely over the top on the Fourth Liberty Loan, the State Council of Defense entreats the good and loyal citizens of that community to subscribe and keep on subscribing until the world knows what your answer will be to all deceptive peace propositions. Your failure to respond to the call of duty will be just as calamitous as a defeat at the front. If you are going to give a headache to any one these days, give it to the enemy in Berlin and not to the men fighting our battles.

One subtle purpose of the request for an "armistice" was to divide sentiment and slow up the fighting energies of the great forces that are now settling all issues involved in the war. The man who begins to hold back his help on the theory that "the war is about over" is the one who is really working to prolong the war and increase the total losses. A good foot-ball team plunges all the harder when the other fellows begin to break in the line. Now is the time when speed and energy will count. No let up! Straight on to victory!

Every Red Cross chapter has received copies of a leaflet on "Spanish Influenza," telling about the prevention and treatment of the disease. Get a copy and help to check the epidemic.

Do your Christmas shopping this month and next month—the sooner the better. Don't ask for special deliveries and don't involve the merchant in a lot of bookkeeping on your account.

We must deliver to the allies seventeen million tons of foodstuffs. This is fifty per cent greater than our total food contributions during the past year. We must conserve the staple foods, not part of the time but all of the time.

The school children were to have taken a census of the live stock in Indiana this week but the flurry over "flu" has closed the schools, so the federal authorities probably will ask for it next month.

Only one Christmas parcel will be accepted by the Red Cross for shipment to a soldier overseas. Each soldier will be given a Christmas Parcel label which he will forward to the person at home from whom he wishes to receive the package. No package will be received unless it bears a special label. The cardboard boxes which must be used can

be obtained from Red Cross chapters and branches after November 1st. The parcels must be turned in at Red Cross receiving stations not later than November 15th. Get the special directions regarding contents and total weight before making final plans as to what you are going to send him.

Governor Goodrich, in his recent proclamation, requested every farmer to have enough good seed corn for two years safely hung in the dry by October 15. How about it?

Fruit pits and nut shells seem to be trifling things to fool with, but they are needed in the making of gas masks. Pennies and grains of wheat look small off by themselves but a lot of pennies will finance the war and many grains of wheat will feed the world. Get to be the busy little saver, even to tin foil and collapsible tubes and old pewter. The government can use almost anything these days except a slacker.

The Scottish Women's Hospitals in England have received an additional \$150,000 from the American Red Cross, making a total of \$725,000.

BREAK LA GRIPPE OR INFLUENZA

DIRECTIONS.

Go to bed at once, cover up real warm, take four doses of Hull's Superlative Compound, 20 drops every two hours. You will go into a sweat. Remain covered until perfectly dry. You will notice that aches, pains and fever have disappeared. Follow by taking 8 to 10 drops three times a day until perfectly well. Do not expose yourself or get chilled until you are thoroughly well, or a relapse is liable to take place, which may be much worse than the first attack. If it does not act on the bowels in 12 hours take a strong physic.

"25 years ago I had a bad attack of real influenza; our family had the same. Hull's Superlative did its work in 24 hours and broke it up and has broken up all the colds and lagrippe I have had in the last 20 years. I know what it will do and have confidence; that is the reason I can recommend it to others, with good faith and a clear conscience that it will do for you what it has done for me."

Hull's Superlative is a root and bark remedy, rich in Peruvian Bark, fever breaker, Golden Seal the greatest known vegetable antiseptic and other ingredients as good as those mentioned. Hundreds testify to great good received. Be sure and keep it in the house. LaGrippe comes almost at once without warning. Then is when you need Hull's Superlative.

Assemblers vs. Manufacturers.

A FACTORY is a place where things are MADE. Some
so-called factories are merely assembling plants where they put to-
gether, what other real factories build.

The factories where the "RUSHVILLE SPECIAL"
Spreaders are built produce these machines direct from the raw ma-
terial. Every part and piece going into these machines with one ex-
ception, the steel chain, is made from the raw material in the Litch-
field Factories. Pig-iron, steel, raw lumber—these are the things
that go into the Litchfield Factories and the completed machine
comes out.

Our customers will be surprised to find how many "factories"
depend on other factories to produce many of the parts and pieces
that go into the machines they produce. The Litchfield Factories
make their own steel castings, their own steel wheels, their own bolts,
their own seat springs, their own coiled rolled shafting. In fact ev-
erything in this spreader is under the direct building control of the
Litchfield Organization and this means a KNOWN quality such,
as it would be absolutely impossible to produce if the machine were
built in a half dozen different plants and assembled in another one.

This is one of the important reasons why this machine can be
sold under the liberal guarantee which we place behind it. Come and
see it.

C. H. Tompkins

RUSHVILLE, INDIANA.

RED CROSS TRIES TO PREVENT SPREAD

Every Agency At Command Of Relief
Organization Is Used To Combat
Spanish Influenza

OUTLINE OF THE WORK DONE

Emergency Supplies Are Sent To
Cantonments And Nurses Are
Relieved Of Routine Work.

(By United Press.)

Indianapolis, Oct. 21.—Owing to
the increased demands upon the Red
Cross during the influenza epidemic
every facility which the relief orga-
nization has at its command is being
used to assist the medical corps at
military camps and training schools
and also to prevent the spread of the
disease among civilians.

An outline of the work being done
in the state was made public today.
As soon as the disease became
prevalent in the cantonments, em-
ergency supplies of coats, blankets,
medicine and influenza masks were
sent to Ft. Harrison and various vo-
cation training institutions, as well
as to Camp Taylor and Camp Sher-

man where Indiana boys are quarter-
ed.

Nurses were assigned to meet the
emergency to the various camps,
scores being sent to Ft. Harrison
alone.

The hospital facilities in practical-
ly every city of the state were sur-
veyed so that accurate data might be
on hand in case the disease became
epidemic in any locality. Buildings
which might be used for hospital
purposes were arranged for and will
be taken over in case the hospitals
become over-crowded.

The greatest need has been experi-
enced for nurses. Volunteers ser-
vice was offered by many Indianapo-
lis women who worked in the kitchen
and did other tasks, relieving the
trained nurses for actual care of the
sick.

INDICATE SUGAR STILL AVAILABLE

Reports From County Food Admin-
istrators Show No Great Quantity
Hoarded By Housewives

PRIVILEGE IS NOT ABUSED

Women Are Urged To Use Sugar For
Preservation Of Fruits And Ve-
getables For Winter.

Reports from Indiana county fed-
eral food administrators are ac-
cepted by J. E. Larger, sugar distribu-
tor for the state, as indicating that
the "invisible sugar supply," which
since the beginning of the emergency
has included a quantity hoarded by
individual consumers, to be an in-
considerable total and not sufficient to
justify the belief that there has been
any serious abuse of the canning
certificate privilege. For that reason
there is still available sugar for
canning purposes, which the patriot-
ic and thrifty housewives are urged
to use for the preservation of fruits
and vegetables for use during the
winter.

Occasionally reports are made of
the discovery of hoarded sugar se-
cured by violations of the official
regulations, and in each instance pub-
licity has been given the offenses
and the sugar restored to the avail-
ues of trade. It is believed by the
sugar distributor that there have
been fewer than an average of one
case of hoarding in twenty-five of
legitimate use of the canning cer-
tificates.

George Vinall, federal food admin-
istrator reports the confiscation of
734 pounds of sugar found illegally
in the possession of Andrew Kleck-
ner, of east of Plymouth. Gus
Frank reports a case of hoarding by
Mrs. Arch Wolfington and the sugar
was turned into the retail trade.

The Wolfington woman and her
husband own a large farm. Mr.
Frank reports and have bought no
bonds or war savings stamps.
Notice of the revocation of the
license of the Hughes Lumber and
Grain company, of Brooklyn, for ir-
regular practices in the shipment of
grain was received today by the food
administration from the Enforcement
division at Washington. The com-
pany is thus prohibited from furth-
er dealing in food stuffs for the pe-
riod of the war.

Mrs. Abigail Wilton, an American
woman, has sung "Lead, Kindly
Light," 50,000 times in public.

GREAT DEMAND VICTORY FLOUR

Consists of Eighty Per Cent Wheat
and Twenty Per Cent Substi-
tutes—To Educate Consumers

SIMS IS ADVISING MILLERS

Omission of Reference to Victory
Flour From New Home Cards
About to be Promulgated.

Anticipating the universal demand
for victory flour, which consists of
eighty per cent wheat and twenty per
cent substitutes, to which the United
States food administration is seeking
to educate the American consumer,
Carl W. Sims, chairman of the mill-
ing division of the Indiana federal
food administration is sending to
millers of the state the suggestion
that they prepare at once for the
production of this mixture.

Millers are advised that omission
of reference to victory flour from the
new home-card about to be promul-
gated is due to the recognition of an
unprepared condition in the milling
trade for the manufacture of the
flour in sufficient quantities to meet
the demand. An appeal has been
received by Mr. Sims from the mill-
ing division of the food administra-
tion at Washington to assist in pre-
paring for this step in conservation
to which the United States is pledg-
ed, in co-operation with her as-
sociates in the war against the cen-
tral powers of Europe.

Efforts are being made, Mr. Sims
is advised, with a fair prospect of
success to secure a suspension of
the mixed flour law, for the period
of the war. The law imposes a re-
venue upon all mixed flour and it has
served to discourage preparation for
the production of the victory formula.
Many mills have preferred to sell
their output to the bakery trade
which does its own mixing. How-
ever, with the greater percentage of
wheat flour consumption permitted, it
is expected that many housewives
will prefer to do their own baking
and it is in anticipation of the de-
mand growing out of such arrange-
ment that the mills must alter their
equipment to mix the 80 per cent
wheat and 20 per cent substitute.

Adding an ounce of camphor to
each five gallons of gasoline he
uses, an English automobilist claims
to effect a fuel saving of 20 per
cent.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes
—Most Women Can Have

Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F. M. Edwards for 17 years treated
scores of women for liver and bowel
ailments. During these years he gave to
his patients a prescription made of a few
well-known vegetable ingredients mixed
with olive oil, naming them Dr. Edwards'
Olive Tablets. You will know them by
their olive color.

These tablets are wonder-workers on the
liver and bowels, which cause a normal
action, carrying off the waste and poison-
ous matter in one's system.

If you have a pale face, sallow look, dull
eyes, pimples, coated tongue, headaches, a
listless, no-good feeling, all out of sorts,
inactive bowels, you take one of Dr.
Edwards' Olive Tablets nightly for a time
and note the pleasing results.

Thousands of women as well as men
take Dr. Edwards' Olive Tablets—the suc-
cessful substitute for calomel—now and
then just to keep in the pink of condition.
10c and 25c per box. All druggists.

THIRD ANNUAL SALE OF Big Type Poland Chinas At Connerville, Indiana. Wednesday, October 23, 1918

The consignment consists of two great yearling Boars, one
of them sired by the noted Wonder Buster, a hog that sold for
\$5300. The other was sired by Giant Orphan, and is a large and
very heavy, boned fellow. They are real herd headers.

55 HEAD OF SPRING PIGS go in this sale, sired by three grand
good boars, and are out of sows sired by noted and popular boars.
This offering, we must frankly say, are far superior to any con-
signment we ever put through a sale ring. They have the size, the
bone and the stretch and their breeding is of the very best.

Sale will be held at the Farm under large tent, one mile west on
the Rushville road and one mile south. Free conveyance to the
farm from the Fayette Bank, corner 6th and Central Ave.

SALE WILL BEGIN AT 12:30.

Lunch will be served at 11:30 by the Ladies Aid. Proceeds for
the benefit of the Red Cross. Come early and make your selec-
tions, and spend the day with us, and eat with the ladies, thereby
assist a worthy cause—the Red Cross.

OVER A MILLION SPENT IN BELGIUM

American Red Cross Aids Belgian
Soldiers And Civilians Out-
side Occupied Territory

REPORT FIRST TEN MONTHS

Sum of \$1,947,325 is Appropriated
to Continue Work Remainder
of This Year

Washington, October 20.—Rel-
ief work by the American Red Cross
in Belgium necessitated an expendi-
ture of \$1,432,374 for the ten months
ending June 30. This amount went
to provide comforts and medical
assistance for Belgian soldiers, 90-
000 residents of that part of the
little country outside the German
lines and the 600,000 Belgian re-
fugees scattered through France,
England, Holland and Switzerland.

The sum of \$1,947,325 has been
appropriated to continue the work
during the last six months of this
year. Thus by the end of this year
the Red Cross will—since the war
began—have appropriated for use
among the Belgians the sum of \$3-
379,699. These are the outstanding
facts in the current section of the
War Council's report relative to the
use being made of the Red Cross
war fund.

The establishment of eighty-two
canteens, which provide daily re-
freshments for 25,000 soldiers, the
financial assistance given to nine
hospitals that are combating disease
among the civilian population and
refugee colonies, the construction
and support of a barracks which
shelters 400 children and the main-
tenance of a home for disabled Bel-
gian soldiers are a few of the things
the Red Cross has done for the
courageous little kingdom and its
people.

About 15,000 Belgian children in
the countries mentioned are health-
ier and happier as a result of day
nurseries established by the organi-
zation.
Co-operation between the Red
Cross and the Belgian government
has been so effective that this aid
has been distributed largely through
the medium of Belgian agencies. A
donation of one million francs to the
Queen for the support of the hospi-
tal service and another of half a
million francs to insure the comple-
tion of a large hospital were among
the first expenditures of the Red
Cross in Belgium.

The organization has established
what is known as the Queen's purse,
a fund of five thousand francs
which is distributed among the coun-
try's war victims. As free Belgium
is within easy range of German
guns and bombs, hospitals in that
territory have been destroyed from
time to time increasing the cost of
relief work.

MARRY IN CINCINNATI

Shelbyville, Ind., Oct. 21.—The
marriage of Abraham Goodman, a
business man here, and Miss Bertha
Ruth Hart, took place at the home
of the bride's parents in Cincinnati,
O., last Wednesday, according to an
announcement just made here.

COFFEE PRICE WILL SOAR AFTER THE WAR

Local Dealers Hear Advance of 5 to
10 Cents Will Come For Two
Good Reasons

PRODUCTION BELOW NORMAL

That the price of coffee will in-
crease 5 to 10 cents a pound after
the war, is the prediction made by
many wholesale coffee men, reports
of which have been received by local
grocers. They say the reason will
be the complete exhaustion of coffee
stocks in Europe and a great reduc-
tion in this year's crop in Central
America and Brazil. In these two
countries only 5,000,000 bags of
this staple have been produced this
year in comparison with approxi-
mately 18,000,000 bags in normal
times.

It is reported large numbers of
the coffee trees have been killed by
freezing and that new trees must be
planted before production can be
brought up to normal. It has been
difficult to get coffee enough for this
country. Even with the curtailed
demands due to stopping practically
all shipping to Europe, the prices
are bound to soar after the war,
dealers say, with the more than nor-
mal demand in Europe, in addition
to increased demands in this coun-
try.

The government has said that it
would not look with favor on any
increase in the price of package cof-
fee, and this has tended to keep
the price down, although fractional
increases have been made in some
instances. No such action has been
taken on green coffee, which has
advanced 2 to 3 cents on the pound.
With the greatly increased cost of
tin receptacles, the placing on the
market of coffee in sanitary pack-
ages has been greatly curtailed.

A horse has been known to live
seventeen days without eating or
drinking.

ASSUMES ARMISTICE RESULT OF ACCEPTING U. S. PROPOSAL

(Continued from Page One)

The German government proposes in regard to all these charges, that the facts be cleared up by a neutral commission.

London, Oct. 21—3 p. m.—According to a wireless message from Berlin today, the German reply to President Wilson says that in accepting the proposal for evacuation, the German government assumes that an armistice would be agreed upon by both sides.

The reply protests against the reproach for illegalities and inhumanities and denied that in sinking ships, German submarines purposely destroyed life boats or passengers.

The reply refers to the president's demands for the destruction of every arbitrary power that can separately, secretly and of its own single choice, disturb the peace of the world, and declared that the present government is free from such domination and is supported by a great majority of the German people.

Berlin, (By Wireless, Via London), Oct. 21—3 p. m.—Germany, replying to President Wilson, announced that orders had been issued to all submarine commanders to stop the torpedoing of passenger ships.

The text of the note covering this point follows: "In order to avoid anything that might seem to hamper the work of peace, the government has caused orders to be dispatched to all submarine commanders precluding the torpedoing of passenger ships, without, however, for technical reasons, being able to guarantee that these orders will reach every single submarine at the sea before its return."

Washington, Oct. 21.—President Wilson and Secretary of State Lansing today had before them the unofficial German reply as picked up by wireless from the great German station at Nauen.

It was officially stated, however, that the text of the Teuton response would not be made public here nor would any comment be made on it pending receipt of the official text.

From official information received here, Germany may send a decision in its reply to President Wilson's note, which will leave the door open to further discussion if this government believes it necessary.

Indications are Germany will seek to justify her activities on sea and in leaving occupied territory, to protect her against claims for indemnity at the peace table.

That she will point to constitutional reforms reported under way, to strip her military autocracy of its power, is also the conviction of officials here. If this proves true, peace would appear a long way off.

Officials of this government and entente diplomats would say nothing regarding the German action until the text of the note is available.

At 2:30 the Swiss legation said it had been advised that the official German reply was expected some time tonight, following the usual course of procedure that would delay delivery to President Wilson until tomorrow.

MSR. TOBIAS OWENS DIES OF PNEUMONIA

Disease Brought on by Spanish Influenza Results Also in Death of Her Daughter

WHOLE FAMILY IS STRICKEN

Mrs. Tobias Owens, age 51 years, died Sunday afternoon at 2:30 o'clock at her residence in South Pearl street, after an attack of pneumonia brought on by the Spanish influenza, and was followed in death shortly before noon today by her daughter Louise, 16 years old. Mrs. Owens was born in Ireland in 1868 and came to Rushville thirty-five years ago. Her death comes as a great shock to her many friends and relatives. Besides her husband, she is survived by nine children, Mrs. Jesse Smith, Mrs. Jesse West, John, William, Anthony, Thomas, Francis and Charles, a brother, John Jordan and one sister Mrs. William Abrams, all living here. Double funeral services will be held at the home of the deceased Wednesday morning at ten o'clock

with the Rev. Father M. W. Lyons officiating. Burial will be in the Calvary cemetery. The funeral will be private. The Owens family has been sorely stricken by the prevailing epidemic, as every member of the family have been effected. At present a little grand daughter, Mary Louise West, is critically ill with pneumonia.

Planned to Evacuate France Before Peace Note Was Sent

Continued from Page One
are moving back from the British and French. The enemy line is swinging like a great gate, the retreat becoming more rapid in proportion to the distance from the hinge. But the Huns are fighting hard before Metz whereas their resistance in France is light. King Albert may enter Brussels within a fortnight. The fourth and fifth German armies are hard pressed. They face the alternative of scrambling across the Belgian frontier, surrendering to the Belgians or moving toward Liege. Either appear to be in any position to put up a strong defense. The Belgians are pushing on towards Ghent and Surdenes, covering Germany's north flank. British, Americans and French are menacing the enemy center and French and Americans in the Meuse region threaten the very hinge of the whole movement.

Americans Continue Attacks

Washington, Oct. 21.—American forces north of Verdun Sunday continued their attacks, Gen. Pershing reported today. During the last week the Germans have constantly increased their forces there in a determined attempt to hold that sector and prevent disaster to their retreating forces in Belgium and northern France. Pershing indicates.

15,000 Huns Escape to Holland

London, Oct. 21.—The enemy continues to withdraw on the whole front in Belgium. The Germans have been thrown across the Lys river at three places, and are being forced back on Ghent and Tournai. Belgian troops have taken charge of the Holland-Belgian frontier, reached by the allied advance. They received an enthusiastic greeting from the populace of the villages. King Albert's forces are along Deynze-Eeloo canal. British troops of the 2nd army late Sunday were reported moving toward the Scheldt river, having arrived at Peen, north of Tournai.

Caught between the allied advance and the Dutch border, 15,000 German soldiers are reported to have crossed into Holland, where they have been interned. Advice describing this movement reached London by way of Amsterdam.

Since the opening of the last great Flanders drive, says a report by Field Marshal Haig, the allied forces have moved their line forward thirty miles on a front of thirty-six miles.

Since October 12 the 2nd British army alone has captured 6,509 prisoners and 169 guns. This is in addition to the very considerable number of captives taken by the Bel-liberated.

THREE FALSE ALARMS

The fire department answered three false alarms between 2 p. m. Saturday and 7:45 p. m. Sunday. The call came over the telephone Saturday afternoon. Saturday night the department made the run in a drenching rain.

THREE DEATHS ARE DUE TO INFLUENZA

Continued from Page One
rules and regulations of the state board of health, regarding public meetings. Practically all gatherings of every character have been called off and the greatest danger of the spread of the disease now appears to come from business houses where crowds congregate. The health authorities today again re-emphasized the necessity of people not loitering any place in doors, because of the danger of contributing to the spread of the disease. It is urgently requested that people who have shopping to do, do it as quickly as possible and leave. Loitering in pool rooms, cigar stores and candy kitchens should not be countenanced by proprietors, the health officers, say. Whether the ban will be lifted on all public gatherings, which resulted in the closing of the schools, theaters and churches, two weeks ago today, depends entirely on whether the disease is on the wane by next Saturday midnight, to which time the ban has been extended. It is to the interest of everyone that the greatest precautions be taken to stop the spread of the malady so that the business and social life of the county

What our prices save you should be put into War Savings Stamps

A combination of merchandising foresightedness enables us to save you considerable money in your coat and suit buying this fall.

It's just this—we placed our orders very early with makers who had long ago laid in great reserve stocks of materials, both of us thus avoiding many of the heavy price advances that are now figured into the selling prices you are confronted with elsewhere.

Grant that elsewhere prices—because of their greater prevalence—are standards of value today. Ours, then, are better than standard.

Grant, too, that you are able and willing to buy on the basis of prevailing values. Good! Set your limit, buy here for less, and invest the difference in War Savings Stamps!

That will be good financing for the Stamps will earn interest; effective patriotism for the money put into Stamps means more punch in the fighting abroad, a quicker return and fewer casualties.

You will find another advantage here—style. Our makers are big—so big they have their own style-correspondents abroad and employ the highest paid designers in this country—men and women who create styles that serve as models for others to copy or adapt.

Considering the times our assortment is unusually extensive. We can please you in point of simplicity or gayety—we can meet the lean purse or the opulent.

U. S. ARMY BLANKETS

We have a limited supply of Regulation U. S. Army Blankets for the boys in Camps in U. S. A.

E. R. Casady
RUSHVILLE INDIANA

ty may resume its normal channels.

There are no positive indications that the disease has reached its peak in Indiana. Dr. J. N. Hurty, secretary of the state board of health, received only a small amount of mail and a few telegraph messages Sunday, which made it impossible for him to give an opinion today on the exact conditions of the epidemic in the state. Partial reports, which reached him, however, indicate the disease had reached its crest in some communities and that it was subsiding in other localities.

TO BEING MAILING TO SECOND GROUP

Continued from Page One
and the cards notifying the registrants of their classification were in the mail. The board has classified 977 registrants and now faces the task of classifying 1,268 more.

The legal advisory board, which is charged with the duty of assisting registrants in filling out their questionnaires, today issued the following statement to registrants, urging them to seek the advice of members of the board and their assistants as soon as possible after receiving their questionnaires:

The local board will begin mailing questionnaires to unclassified registrants on Wednesday, October 23, 1918.

The legal advisory board in each township in the county will be ready immediately to assist all registrants, and it is desired that such registrants appear before such boards as soon as possible after receiving their questionnaires.

Read your questionnaires before going to the board.

Those who have dependents and those who are engaged in agriculture are urged to read the instructions prepared by the legal advisory board, and which are enclosed with the questionnaire.

The board will begin work at 8 a. m. of each day. Those coming first will be served first.

Class one registrants will be examined physically every day this week except Saturday. A few will likely be called for examination next Monday, the number depending on whether any rulings from the district board are received all registrants placed in class one by the local board will have been examined by the end of this week.

CAPT. CARSON OVERSEAS

Mrs. Susie Carson of Edinburg received a cablegram that her son, Captain Cary Carson, has arrived safely in an English port. Captain Carson was commissioned last August at the first officers' training school at Fort Harrison and then was sent to Camp Taylor, Ky., where he was stationed as a captain in the Lincoln division.

117-121 S. Main St. Rushville, Indiana.

SHRAPNEL PROVIDED
BY EARL B. MARLATT

Former High School Teacher Supplies "Dope" For Column in "The Probable Era," Published by Central Officers Training School at Camp Taylor, Ky.

The following from "The Probable Era", published by the Central Officers Training School at Camp Taylor, Ky., is from the pen, pencil,

typewriter or what not of Earl B. Marlatt, former high school teacher, under the head of "Shrapnel."

The pattern should be 270 yards long, but at ease, men—the propelling charge won't carry this one that far.

"The Wanderer."

(Presented with due apologies to William Elliot and the Prodigal Son.)

Scene—A desolate heath in front of the guardhouse.

Time—About bedcheck.

Discovered—A sentinel wrapped in the inevitable blanket as he patrols post No. 1.

Enter—An errant candidate returning from the "Y" to his quarters.

Errant Candidate (seeing sentinel)—"Are you sitting, Bull or Walking Post?"

Sentinel—"Turn out the guard Lunatic!"

Theories Explode, Too.

All day he had been singing "Auf Wiedersehen" and putting especial emphasis upon the line that says "love lives ever."

That night—it was a rainy one—he had a little date in "Loughville." He had the usual "wonderful time"—in fact he had so good a time that in saying good-bye he forgot all about his slicker and left it hanging at attention on the hall-tree.

On his way home he wondered if she really meant everything she had said, and then he remembered his slicker and a certain article of war about issued clothing. It almost "spoiled everything," but he didn't let it. He decided to stroll back the next day and get it, and maybe have "another little date."

All of which he did, but—here's the rub—she had loaned his slicker to "another friend who had called on her that morning."

And just today in the latrine some one heard him singing "Woman is Fickle" as he wrung a full-sized shower out of a dripping O. D. shirt.

"That's A Good Question."

"I believe in conservation, sir, but isn't it carrying it a little too far for an instructor to say 'Mountaineers, prepare to can!'"

"Candidate Essoell, Sir—Is it true that an artillery horse is a cross between a scenic railway and a Persian blade?"

"Will the Lieutenant explain just how the scissors instrument is used in measuring the angle of fall on 'shears to the rear'?"

"Sir, why doesn't an increase in temperature affect the 'frigidity' of the trajectory?"

Outside The Pattern.

He had literally "vomited" out for reveille, but he'd heard of the "Op" and he wanted to go to the range—so he looked a whole lot but said nothing about the way he felt.

"You'd better go on the sick re-

A STITCH IN TIME

Rushville People Should Not Neglect Their Kidneys

No kidney ailment is unimportant. Don't overlook the slightest backache or urinary irregularity. Nature may be warning you of approaching dropsy, gravel or Bright's disease. Kidney disease is seldom fatal if treated in time, but neglect may pave the way. Don't neglect a lame or aching back another day. Don't ignore dizzy spells, headaches, weariness or depression. If you feel you need kidney help begin using the reliable, time-tried remedy, Doan's Kidney Pills. For 50 years, Doan's have been found effective. Endorsed by Rushville people.

Mrs. Joseph Doll, 526 W. Fifth St., Rushville, says: "At times my back was so weak and lame I had to stay in bed. It also ached intensely and my kidneys were very irregular in action. Every time I have been this way, I have used Doan's Kidney Pills, procured at the Court House Drug Store and they have never failed to relieve me after taking a few boxes."

Price 60, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Doll had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—(Adv.)

port" suggested a candidate "and friend."

"Nothin' doin'," he snapped out as quickly as a bad throat would let him. "I'll get either a cross or bars out of all this and I can't get either at the B. H."

And the fever in his eye suggested that he had caught a birds-eye view of a flag and a crucifix above masses of heliotrope and roses.

The Candidate's Mate

And all of them cast their offerings into the burlap sack which hung at the side of the barracks.

And some out of their abundance—it was mostly paper, matches and clean stuff—cast in much.

And behold there chime a spare cannoner who threw in all that he had, a wet cigarette stub, which is the eighth part of a Camel.

And the acting B. C. seeing him said:

"Lo this poor cannoner—does spare mean poor?—has cast in more than them all."—Selah.

Off On A Tangent.

He was fording Hess lane to town for the usual Saturday night debauch and was enjoying every minute of it. Just at the jibe did an unusually electrifying spiral he shouted to his buddy:

"Why go to Fontaine Ferry?"

And everyone in the car who had ever ridden the "Rocky Road to Dublin" or tried the "Scenic Railway" at "Saint Looney" knew exactly what he meant and smiled reminiscently.

A Poet In Artillery.

Yesterday
I was Mercury
Reveling in star-dust
And slouching nectar
From the petaled cups of Jove.
To-day
I am Vulcan,
Proud of my grimy strength
As I tip my thunderbolts
At the flaming forge of God.
(End of the cone of dispersion)

XMAS DELICACIES TO
BE SHORT THIS YEAR

Will be Limited Supply of Many
Kinds of Nuts and Prices Will
be Much Higher

WILL BE SOME SUBSTITUTES

Dates, figs, many kinds of nuts and other delicacies, which are used to make the Christmas plate complete, will be short this year, according to information which has been received here. Thanksgiving and Christmas feasting will be entirely without Brazil nuts. The government has commandeered the supply to obtain a particular kind of charcoal which is used in making gas masks for the troops in the trenches in France. Not only will there be a shortage of Brazil nuts, but the supply of many other kinds of nuts will be curtailed, which will result in much higher prices.

The holiday trade will have to be content with the California soft-shelled walnut. "English" walnuts from France and Naples, almonds from Spain, filberts from Sicily will be obtained in limited amounts. The local supply of black walnuts and hickory nuts will be small as usual. It is predicted there will be an advance of at least forty percent in the prices of nuts.

COULDN'T BLAME THE
POOR BOY FOR BEEFING

(By United Press.)
With the American Army in France, Aug. 31. (By Mail).—All bandaged up, he sat on a rock near the dressing station, waiting for the ambulance, looking as miserable as a man can be. He refused the cigarette, and wouldn't be consoled when assured that his wound was not serious, and that he need not worry. "Tish't that," he said, "it's the way I got hurt. I've been in France less than two months now, but was just getting up where I could get a boche when I got thrown out of a truck and got scratched up. I don't mind getting up where I could get a boche when I got thrown out of a truck, and got scratched up. I don't mind getting wounded, but that's the heck of a way to do it, and anyway I never got a chance at a boche."

Electricity has been adapted to forty-eight different purposes about the household.

EATING HOUSES
UNDER NEW RULES

Regulations Effective Today Are
More Strict Than Any Ever
Issued by Food Administration

SAVE EVERY DAY IS SLOGAN.

Not Expected it Will be Necessary to
Return to the Meatless and
Wheatless Days

Indianapolis, Ind., Oct. 21.—Effective today Indiana public eating houses, including hotels, restaurants, boarding houses, clubs, cafes, dining cars, and every other place where food is served in unusual quantities went under regulations more strict than have been effective since the United States food administration assumed control of their business. Twelve new general orders and six important requests that are intended to eliminate all waste and restrict consumption, particularly of such staples as bread, sugar, butter, cheese, meats and especially fats went in to effect. Coffee, too, must be saved for the sake of the limited ship tonnage now available for its importation.

The orders prohibit any display of food that might result in its deterioration rendering it unfit for human consumption. Bread must not be served with soup in course dinners; bacon must never be a garnishment; sugar must be limited to a teaspoonful per meal and social functions reduced for the sake of saving the things that heretofore have been saved only on meatless or wheatless days, or at some designated time. The food administration asserts that it is important that the saving be persistent and continuous, if the United States is to have enough to supply the armies and civilian population of Europe.

There is no suggestion of a return to wheatless and meatless days and the Food administration does not anticipate the necessity of such a program. However, it declared that waste and misuse of all staples must be brought to an irreducible minimum and then increased production alone may save the situation.

The Food administration, Dr. Harry Barnard believes, will issue no further modifications of the new regulations if the results are as expected.

NOW WE KNOW WHAT
IS WRONG WITH THE YANK

(By United Press.)

With the American Army in France, Sept. 14.—(By Mail).—Two round old French women stood in a doorway of a battered house watching a number of American soldiers stationed in the village for a rest. The boys had just come out of the trenches after repelling a heavy German attack, and they were making the most of a repose to wash clothes, catch "cooties," and talk over how they had handled the bogies.

The two old women were watching the boys carefully. It is always interesting to find out the views of old French people, particularly those who have been within a few miles of the lines ever since war broke out. These fat old women were veterans. Hence their opinions were sought.

They were careful about their views, chary of criticism. They liked the American boys, they said, emphatically. They were "bons garcons, bons soldats," good boys and good soldiers. Everything they said was of the same nature.

"But you are like all the French people, Madame, always complimentary. You never say what you really think. We want the truth."

This provoked one old woman to a statement. Looking around to see that no one was listening, raising her round good natured face, she said in a low but emphatic voice, "I'll tell you, monsieurs, they're fine boys, brave soldiers, all right in every way, but they cut their hair too short and don't have any mustaches. French soldiers have long hair and mustaches."

A gray squirrel was seen to cross Sandy river from Randolph to Kendall.

CASUALTIES TO
DATE ARE 51,056

Overseas Report For Sunday and
Today Increases the Total by
2,686

285 ARE KILLED IN ACTION

37 Indiana Men In Three Reports,
Including One Marine Missing
in Action

Washington, Oct. 21.—The combined lists which were released for Sunday and today show a decided increase in casualties among the American troops. In three lists which were issued from the Washington office, the casualties amounted to 2,686, which includes 37 names of the Indiana men.

Totaling up to this time, the names issued from the war department show a grand total of 51,056, of which there were 9,985 killed in action (including 293 at sea); 3,460 died of wounds; 2,758 died of diseases; 1,099 died of accidents and other causes; 27,967 wounded in action; 5,785 missing in action (including prisoners).

The following casualties for yesterday and today are reported by the Commanding General of the American Expeditionary Forces: 285 killed in action; 297 missing in action; 505 wounded (degree undetermined); 6 died from airplane accidents; 281 died of disease; 16 died from accidents and other causes; 212 died from wounds; 736 wounded severely; 348 wounded slightly.

The Indiana men were divided as follows:

Killed in action—Sergeant Weldon A. Turner, Gary; Corp. Lee Sly, Ellettsville; Private Anton E. Mateski, Gary; Private John T. McEndree, Fountain.

Wounded severely—Sergeant Roy J. Weeber, Ellettsville; Private Louis F. Boehmer, St. Peters; Private Guy Mirin, Fort Wayne; Private William T. Timme, Ft. Wayne; Private Ed L. Townsend, Indianapolis; Corp. Van Buren Mills, Lapal; Private Zachariah Moraitis, Indiana Harbor.

Missing in action—Private Emerson G. Miller, Indianapolis; Private Stephen Tappan, Rolling Prairie; Private Louis Ploenges, Indianapolis; (marine); Private William Tann; Private Charles Kaiser, Aurora; Private Charles Sturgeon, English; Private Orval Thornton, Jasonville; Private Clarence Winford Vest, Linton.

Wounded (degree undetermined)—Private Maurice C. Stegner, Indianapolis; Sergeant Tony Schile, Evansville; Private Clarence L. Crumrine, Noblesville; Private Carl L. Raffel, Michigan City; Private Arnold C. Krebs, Shelbyville; Private Paul Dunn, Tipton; Sergeant Noble E. Griener, Bristol; Private Clarence B. Barkdull, Daleville; Private Joseph H. Kinker, New Point; Private Joseph T. Fell, New Albany; Private Cecil Nesbit, Sullivan; Private El Thomas, Muncie.

Died from wounds received in action—Private Gilbert W. Cox, Sandburn; Private Arthur J. Zollman, Georgetown.

Wounded slightly—Private Lawrence C. Stielow, Walkerton; Private Edward A. Liffer, Aurora; Sergeant Fred W. Stuart, Stinesville; Private Harley E. Roach, Paoli.

ADVANCED TO MAJOR'S RANK

Publicity Agent for Marine Corps
Makes Rapid Strides

New York, Oct. 21.—Three years ago, Thomas G. Sterrett, then a sergeant in the U. S. Marine Corps, came to this city to start a press bureau for the devil dogs. Today he wears the insignia of a major of Marines—the result of a surprise visit from Colonel A. S. McLenore who journeyed from Washington to replace Sterrett's "bars of captain with the gold leaves of major. Sterrett is the first enlisted man in the Marine Corps to reach field rank, since war was declared.

Major Sterrett is a former newspaper man and hails from Erie, Penn.
